

Paige Maggio

Frontend Engineer | React, TypeScript, Next.js

linkedin.com/in/paigemaggio | github.com/pmaggio15 | 253-294-4205 | pmaggio15@gmail.com | paigemaggio.dev |

Experience

Frontend Engineer | Skinstric | Sep - Oct 2025 [Live Demo](#) | [GitHub Link](#)

- Built a production style frontend demo for a skin analysis platform using React, Next.js, and TypeScript, mirroring the live application's user flow and UI architecture
- Implemented real-time image capture and upload workflows with robust asynchronous state management using structured mock API responses
- Engineered a modular, scalable component system using Tailwind CSS to support consistent design patterns and rapid feature iteration
- Optimized image handling, loading states, and UI transitions to deliver a fast, responsive user experience

Frontend Engineering Intern | Frontend Simplified | Aug - Sep 2025 [Live Demo](#) | [GitHub Link](#)

- Extended React analytics dashboard implementing secure routing, role-based access control, and reusable component layouts using JavaScript and TypeScript
- Integrated REST APIs to fetch and render dynamic data with loading states, pagination, and responsive design across devices
- Built modular, well tested React components following consistent UI patterns and component architecture best practices
- Collaborated in Agile environment using Git workflows with feature branches, pull requests, and code reviews

Club Administrator & Tournament Director | Glacier Surf Soccer Club | Nov 2023 - Jun 2025

- Managed operations for 200+ families across 15+ teams including event coordination and communications
- Built and maintained club website for tournament registration and information
- Coordinated logistics, travel accommodations, and stakeholder communications

Projects

NueraFlow AI | Oct - Nov 2025 [Live Demo](#) | [Github Link](#)

- Built full stack AI productivity platform using React, TypeScript, and Next.js with document summarization and intelligent search features
- Integrated OpenAI APIs with async state management handling streaming responses and structured data transformation
- Designed responsive UI with Tailwind CSS and performance-optimized rendering for real time AI interactions
- Deployed on Vercel with PostgreSQL database and serverless API architecture

StayMori Collection | Jun - Jul 2025 [Live Demo](#) | [GitHub Link](#)

- Built full stack vacation booking platform using React, Node.js, Express, and MongoDB with end to end booking workflows
- Implemented real time availability filtering and date based search with REST API integration preventing double bookings
- Integrated Stripe payments with secure checkout, user authentication, and reservation confirmation workflows
- Designed responsive, mobile-first UI with Tailwind CSS ensuring cross-browser compatibility

Education

FES Institute - Frontend Simplified | Certificate | Mar - Oct 2025

- Professional frontend engineering program focused on React, TypeScript, and modern UI architecture

University of Arizona | BS, Care, Health and Society | Aug 2013 - May 2017

- NCAA Division I Varsity Soccer Athlete
- Balanced 20+ hours/week training with full academic course load
- Contributed to 2015-2016 team's Sweet 16 appearance, first in school history

Technical Skills

React • TypeScript • JavaScript • HTML5 • CSS3 • Next.js • REST APIs • Responsive Design • Git/GitHub • Tailwind CSS • State Management • Component Architecture • Performance Optimization • Accessibility (WCAG) • Node.js • Vercel • Firebase • MongoDB
